

Ev. Amalie Sieveking-Krankenhaus of the Albertine Group of Hospitals Hamburg

## VISION AND REALITY

**Integration in perfection.**

**ENDOALPHA provides integrated solutions for endoscopy and operating theatres.**

Olympus' integrated concept for endoscopy and operating theatres provides solutions to enable hospitals of all sizes to optimize processes and increase efficiency. ENDOALPHA covers everything – from planning and building theatres or endoscopy departments, to central control of medical devices and non-medical peripherals, to image and video documentation or video management and workstation design – and is already established in many hospitals.
